Sustainability is about the actions we take to fulfil our purpose so Landsec prospers far into the future. We want customers to prefer our spaces. We want communities to be pleased it’s us operating in their area. We want partners to share our priorities. And we want employees to invest their energy and ambition here. When we get all this right, we create value for our investors.”

Robert Noel
Chief Executive

Our 2018/19 highlights include meeting our 2020 Community Employment commitment, launching exciting consumer-focused recycling projects to tackle coffee cup, single-use plastic and fashion waste and becoming a signatory of the UN Global Compact.

During the year we announced an ambitious new commitment to create £25m of social value through our community programmes by 2025. Through this new commitment we’ll focus on delivering impactful employment, education and volunteering projects, targeting the opportunities which create the most value to society.

Find out more
You can find a summary overleaf of progress against our twelve sustainability commitments. You can also find detailed performance and disclosures in our 2019 Sustainability Performance and Data report and in the 2019 Annual Report, plus more detail on our policies and approach to environmental, social and governance issues at landsec.com/sustainability.

Our results

1,336
People furthest from job market supported into employment through our Community Employment Programme

30,000
kWh of electricity produced every year from our latest solar project at Westgate, enough to power eight households for a year

£3.2m
Social value created through our community programmes and partnerships

100
Brands signed up to our ‘Refill Me’ campaign tackling single-use plastics

£4m
Costs avoided for our customers through our energy efficiency projects

£11.8bn
Total contribution to the UK economy each year from people based at our assets

600m²
Insect friendly and biodiverse planting installed across our assets

100%
of waste diverted from landfill

This year we launched the first aerial window cleaning academy in a UK prison at HMP Isis

<th>Materials</th>
<th>Biodiversity</th>
<th>Wellbeing</th>
</tr>
</thead>
<tbody>
<tr>
<td>Assess and mitigate physical and financial climate change adaptation risks that are material across our portfolio.</td>
<td>Source core construction products and materials from ethical and sustainable sources.</td>
<td>Maximise the biodiversity potential of all our development and operational sites and achieve a 25% biodiversity net gain across our five sites currently offering the greatest potential, by 2030.</td>
<td>Ensure our buildings are designed and managed to maximise wellbeing and productivity.</td>
</tr>
<tr>
<td>On track Conducted further climate change resilience research to determine how climate change will affect our portfolio. Our investment and divestment activities this year have reduced the risk to our portfolio from extreme weather.</td>
<td>On track Progressed the design of our developments against this target and have included responsible sourcing guidelines in our design guides, providing our design and delivery partners with strict environmental and ethical parameters.</td>
<td>On track Extended our commitment to our assets in London and are assessing opportunities for installations in the year ahead. We’ve planned and secured budget for biodiversity enhancements, which will deliver net gain in biodiversity at each site of between 5% and 25%.</td>
<td>On track Adopted wellbeing clauses in our engineering specifications and design briefs ensuring our developments deliver specific wellbeing outcomes. Our commercial office developments focus on the delivery of optimal air and water quality, daylighting, acoustic and thermal comfort.</td>
